

Car Queuer

By Isaac Acks

Axtime Ver: 2.0.3

Doc Ver: 2.0

0. Open the Chrome browser, and go to <http://axtime-sys.sfrscca>, 192.168.1.111, or whatever IP the Time Keeper laptop is.

1. On the home page, click on today's event.

The screenshot shows the Car Queuer home page. On the left is a 'Menu' sidebar with the following items: 'Season Leaderboards', 'System Admin', 'Create Event', 'Backup Data', 'More Tools', 'Members', 'FAQs', 'Recalc Leaderboards', and 'Restore Data from Backup'. On the right is the 'EVENTS' section, which is divided into 'Todays Events' and 'Past Events'. Under 'Todays Events', there is a card for '2014 SFRSCCA #12' at 'Crows Landing' on '11/19/2014' with 'Participants: 0 / Total Runs: 0'. Under 'Past Events', there is a card for '2014 SFRSCCA #11' at 'Crows Landing' on '08/03/2014' with 'Participants: 185 / Total Runs: 580'. Each event card has a right-pointing arrow icon.

2. Log in as Event Admin or Car Queuer. Event Admin preferred. You'll be brought to this page if you're an admin. Then click Car Queuer. If you logged in as Car Queuer you'll be brought straight the Car Queuer page.

Admin Page:

The screenshot shows the Admin Page. At the top is a row of five yellow buttons with icons and labels: 'Time Keeper' (clock icon), 'Cone Counter' (cone icon), 'Car Queuer' (circular arrow icon), 'Worker Checkin' (checkmark icon), and 'Tech Inspector' (wrench icon). Below this is the 'Event Administration' section, which contains a grid of 12 buttons. The first row has four buttons: 'Registration' (person icon), 'Driver Checkin' (checkmark icon), 'Event Setup' (gears icon), and 'Upload Course Map' (map icon). The second row has three buttons: 'Raw Times' (clock icon), 'Timer' (clock icon), and 'Recalculate Event' (gears icon). The third row has three buttons: 'Print Results' (printer icon), 'Export' (arrow icon), and 'Post Results' (arrow icon).

Car Queuer:

The screenshot shows the 'Car Queuer' web application. At the top is a black header with a home icon and the title 'Car Queuer'. Below the header is a blue button labeled 'Add Driver to Queue'. Underneath is a large white input field with the placeholder text 'START LINE - Insert driver here'. Below the input field, the text 'No one queued up yet.' is displayed. This is followed by a paragraph: 'For laptop users, this page is keyboard enabled, just start typing a car number and hit enter to submit.' Below this paragraph is a bulleted list of instructions: 'Notice the "number box" that appears in the top left corner when you start typing.', 'Use number keys to type a number', 'Use arrow keys to move the insert position', 'Hit Enter or Return to submit', 'A Green box means a valid car number and only one', 'A Red box means no match yet', and 'An Yellow box means there are multiple drivers with that number'. At the bottom of the interface is a green bar with a checkmark icon on the left and the text 'LAST IN LINE - Insert driver here' on the right.

Car Queuer

+ Add Driver to Queue

START LINE - Insert driver here

No one queued up yet.

For laptop users, this page is keyboard enabled, just start typing a car number and hit enter to submit.

- Notice the "number box" that appears in the top left corner when you start typing.
- Use number keys to type a number
- Use arrow keys to move the insert position
- Hit Enter or Return to submit
- A Green box means a valid car number and only one
- A Red box means no match yet
- An Yellow box means there are multiple drivers with that number

LAST IN LINE - Insert driver here

3. We're going to split here based on the use case:

- A. Insert driver to the end of the line
- B. Insert driver to the front of the line
- C. Delete a driver from the line
- D. Insert a driver between cars
- E. Move someone in queue up or down the line

A. Insert Driver to the End of the Line

1. Make sure you see a giant green box on the bottom of the main screen. It will say “LAST IN LINE – INSERT DRIVER HERE”. That means that everyone you add will be put to the bottom of the list.

2. Click “Add Driver to Queue” to bring up this window:

Close

1	2	3
4	5	6
7	8	9
0		X

No Results yet. Start tapping the big numbers.

3. Start clicking the numbers of the driver you want to queue up. Then click the driver.

Close

LAST IN LINE - Insert driver here		

C. Delete a Driver From the Line

1. On the main Car Queuer window, find the driver you want to delete. Then just click the “X” next to his/her name.

The screenshot shows the 'Car Queuer' application window. At the top is a black header with a home icon and the text 'Car Queuer'. Below this is a blue bar with a plus icon and the text 'Add Driver to Queue'. The main area contains a list of drivers in a queue. The first driver is #197 CS, Karlton Lew, with a 2011 Nissan 370Z. To the right of this entry are three icons: a square with an upward arrow, a square with a downward arrow, and a green 'X'. A red arrow points to the green 'X'. Below this entry is a light gray bar with the text 'START LINE - Insert driver here'. The second driver is #174 OSP, Dan Pellow, with a 1965 Factory Five Cobra. To the right of this entry are three icons: a square with an upward arrow, a square with a downward arrow, and a black 'X'. Below this entry is a light gray bar with the text 'Insert driver here'. At the bottom is a green bar with a checkmark icon and the text 'LAST IN LINE - Insert driver here'. The text 'Run: 1' appears to the right of the driver entries.

Driver	Car	Run	Actions
#197 CS	Karlton Lew 2011 Nissan 370Z	Run: 1	Up, Down, Delete (X)
#174 OSP	Dan Pellow 1965 Factory Five Cobra	Run: 1	Up, Down, Delete (X)

D. Insert Driver Between Cars

1. On the main Car Queuer page, click the box that says “Insert Driver Here” that’s between two drivers.
